

PATIENT RESPONSIBILITIES

You have the responsibility to:

- Give accurate and complete health information concerning your past illnesses, hospitalizations, medications, allergies, insurance coverage and other issues pertinent to your therapy.
- Once your training is complete, to carry out your therapy as taught, to maintain a safe home setting for the storage and infusion of your medications, and to be available to the home care company staff for home visits and supply deliveries, as needed.
- Notify the home infusion center's pharmacist of side effects, or significant changes in your medical condition.
- Participate in planning your care.
- Request more information about anything you do not understand, including billing questions.
- Notify the home care company if you are admitted to the hospital, if the doctor stops your therapy, or if you plan to travel while receiving therapy.
- Pay certain charges should they not be covered by your insurance, and/or arrange special payment plans as needed.
- Voice complaints/concerns to the Center Manager of the home care company's service center.
